SUMMARY

I am Web Developer who initiates effective communication between teammates and clients and exudes enthusiasm for object oriented programming. I pride myself as being a knowledge marauder who creates web solutions that inspire, educate, and empower people to reach their defining moments.

EXPERIENCE

Web Developer
General Assembly
Feb 2016 - Current

- Viva la Vegan: an application that provides users with the vegan options at restaurant chains (AngularJS, Ruby of Rails, PostgreSQL).
- Steps Battle: an application that turns step tracker data into game points, so that a user can upgrade their game equipment and duel others players (Ruby, Ruby on Rails, PostgreSQL, Bootstrap, SASS, and HTML).
- Memory: a front end memory game (JavaScript, HTML, and CSS).

Help Desk Contractor
Environmental Protection Agency
May 2015 - Jan 2016

- Supported all 13 offices of the EPA by troubleshooting, diagnosing, and resolving software and hardware issues.

Teller
