SUMMARY

I am a Web Developer who initiates effective communication between teammates and clients. I pride myself as someone who creates web solutions that inspire, educate, and empower people to reach their defining moments.

EXPERIENCE

Web Developer
Ruby For Good
June 2016 - Current

- Collaborated on a large team to build a responsive web application for the non-profit Source Population Alliance that pairs Scimitar Oryx with possible mates.
- Owned implementation of authorization and authentication of users utilizing available gems to create a login system and user models with supported roles.

Web Developer
Women Who Code Hackathon
May 2016

- Worked in a team to create a make a Magic 8 ball search engine which generates inspirational quotes based on user input.
- Focused on implementing AngularJS in the MEAN stack.

Web Developer
General Assembly
Feb 2016 - Apr 2016

- Steps Battle: a gamified application that turns step tracker data into game points, so that a user can upgrade their game equipment and duel others players (Ruby, Ruby on Rails, PostgreSQL, jQuery, Bootstrap, SASS, and HTML).
- Viva la Vegan: an application that provides users with the vegan options at restaurant chains (AngularJS, Ruby on Rails, PostgreSQL).
- Memory: a front end memory game (JavaScript, HTML, and CSS).

Help Desk Contractor
Environmental Protection Agency
May 2015 - Jan 2016

- Supported all 13 offices of the EPA by troubleshooting, diagnosing, and resolving software and hardware issues.
- Obtained Public Trust Clearance.

Teller
Bank of America
Oct 2014 - Jan 2015

- Boosted sales for region and was in the top 5 percentile for customer engagement rate within 2 months of being in the company.
